

Bluetooth Smart Control

Wireless controller included with the 650W ScrogMaster PRO

STANDARD INCLUDED

Bluetooth Controller

Control the ScrogMaster PRO wirelessly from a smartphone or tablet. The gateway communicates with the fixture via Bluetooth and supports group-based lighting control.

SMART LIGHTING CONTROL

WIRELESS CONTROL

Bluetooth control via smartphone or tablet

TIMER CONTROL

Automatic ON/OFF scheduling through the app

DIMMING CONTROL

Wireless adjustment of light intensity / PPFD

HOW IT WORKS

GROUP CONTROL

Create groups in the app and connect fixtures through the Bluetooth gateway.

BLUETOOTH RANGE Up to 30 m in open space | 15 m recommended for reliable operation

For pairing, keep the smartphone or tablet within 5 m of the Bluetooth gateway.

Detailed pairing, reset and troubleshooting instructions are provided in the controller instruction sheet.
